Police Discovered Her in a Japanese Boarding-House.

The Proprietor and a Boarder Arrested on Suspicion.

There is a Mystery Surrounding Her Disappearance.

Ka Kn, the fifteen-year-old pearl of the family of Kai Kura, who was abducted from 11 Pall street on Tucsday night, has been found, and the Sixth Precinct Police have in enstody two young Japanese who are held on suspicion of being implicated in the case. She was found in a Japanese boarding-house

at 84 James street. The entire crowd, consisting of Kai Kura, the father; Eyi, his wife; Ki Ku, the cousin, who slept in the same room with Ka Ku when the latter was carried away; Ka Ku, whom the police had such hard work to find, and Charlie Eymoto, the keeper of the boarding. house where the girl was found, and another young Jap named Yoshade Katanaka, who boarded there and who are held for her abduction, were all at the Tombs Court this morn-

Kai Kura's face was wreathed in smiles and he remarked that he owed it to THE EVENING WORLD's agitation of the matter that such interest was taken and his daughter found. The police have had a lively chase after the girl and her abductors, and have been rewarded by finding her. There will probably

be more arrests in the case before to-morrow According to the story of the cousin, who slept in the room with Ka Ku, three young Japs called about midnight on Monday morning, and during the conversation she fell

asleep. When she awoke the Japs were gone, ns was also Ka Ku.

Capt, McCullagh was notified of the supposed kidnapping, and went to work on the

the girl leave the house, and the girl's people could throw no light on the mystery.

The police learned that 84 James street was a Japanese boarding house and a great resort for sailors, and from some one in the neighborhood they ascertained that a Japanese girl had been seen there on Tuesday.

Cupt. McCullagh and Detective Smith visited the place shortly before midnight last night. The proprietor, Charlie Eymoto, who was in charge, denied that the girl was in the house, but the police started to make a search for her.

The Detective Now on Trial for Murder in Fayette County, Ala.

[PPFCIAL TO THE EVENING WORLD.] BIRMINGHAM, Aia., Sept. 6 .- The trial of L. R. Smith, a railroad detective, for the murder of Henry Jackson, a negro murderer whom he had arrested, is going on in Fayette County to-day,

His aileged crime followed upon the brutal murder and robbery of a white man in Aberdeen, Miss., last December.

For a long time the case was a mystery to the police, but suspicion finally fell on Jackson, who had suddenly disappeared. A big reward was offered for his arrest, and

nany amateur detectives took an interest in Finally Smith, tempted by the reward, went to work on the case and succeeded in capturing Jackson last January in Walker

County, Ala.

He started back with his prisoner, but when he arrived in Aberdeen he was alone. He said that while on his way a gang of nasked men had taken his prisoner from him and lynched him by hanging him on a

It turned out, however, that this story was not true. The day after Smith had arrested Jackson the latter crawled into a farmer's house in Fayette County in a horrible state

of mutuation.

The blood was pouring from both sides of his head, and it oozed from five bullet wounds in his body.

Both of Jackson's ears had been sliced off clean. He related that as soon as Smith arressed him he took him into a woods near by

and tried to make him confess.

Jackson resused. Then Smith with horrible cruelty cut off one of his ears.

Jackson, however, revived, and lived long enough to tell the story of Smith's fiendish cruelty. Detective Smith fled when Jackson's story became known, but was captured in South Carolina The trial excites intense interest.

# Detective Smith's Method of Extracting An English Syndicate to Buy Up All Our

Cut Off Both His Ears and Riddled | Barnum and Bailey the Originators of the Scheme.

> Living Curiosities to Be Paid with British Gold.

A flutter of excitement was caused in Wall street this morning by the news that a 'Freak" Trust had been formed in London. and that a rich English syndicate, like the one which bought so many American breweries, was about to buy all living wonders in the United States, and to control and manage

the entire number of American "freaks." So eager was the syndicate, it was said, that the only freaks it had not succeeded in obtaining control of were freaks of imagination and freaks of faucy.

It seems that Messra. P. T. Barnum and James Bailey who are thoroughly competent business men in everything pertaining to freaks of nature and living curiosities, are about to form a syndicate to gain control of all the principal dime museums of the United States.

Mr. Bailey sails for London next month to interest English capitalists in the project. Both stock and bonds will be issued on the museums, which will be capitalized on the basis of their drawing powers.

If, for example, a museum clears \$500 i week, it will be capitalized at a round sum, though it contains only a fat woman and a

Ar. P. T. Barnum and Mr. James Bailey will be the American managers of the syndicate. The present museum owners will be employed by the Dime Museum Trust a directors of its many places of amusement and interest.

The foreign syndicate will not only absorb. The foreign syndicate will not only absorb

all the dime museums of the country, but it will have an absolute monopoly of all the wonderful freaks of nature and all the living curiosities. Every one knows what a freak of fancy is.

yet many readers may not know what a fresk of nature is. Judging from the number of her fresks in the dime museums, nature must

of nature is. Judging from the number of her freaks in the dime museums, nature must have many eccentric moods.

To give a few examples: An alligator boy, an India-rubber man, a living skeleton and a Circassian gril are "freaks of nature." A "living curiosity" is always a "freak of nature." A a "living curiosity" is always a "freak of nature." A india-rubber man, a living skeleton and a Circassian gril are 'freaks of nature." In may be a deceased curiosity. The Egyptian king in the museum, who has not reigned for 3,000 years, is a dead curiosity; but the ossified negro, who looks like an ancient Egyptian king awakened, is a hving curiosity.

The great English Freak Trust will make a cruel monopoly. Freaks of nature are like land. They are limited. They cannot be increased or diminished.

It is easy to see that the syndicate of English capitalists may zet bossession of all the American freaks of nature and charge the American freaks of nature and charge the American public what it pleases for the pleasure of looking at its living skeletons, its ossified men and alligator boys.

It will cost twice as much to see giants and fat women. Living skeletons will advance 100 per cent. The kangaroo and the gyascutus will be beyond the reach of the poor. Some museums will close up and others will supply a cheap line of curiosities.

The facts in regard to the Freek Trinst were made public by Mr. Bailev's brother in law, Prof. J. S. McFadden, M. A. LL. D., who is a lecturer in Kohn & Middleton's dime museum in Minneapolis, Minn.

Prof. McFadden says that the English syndicate proposes to raise \$2,000,000 for the purpose of absorbing all the American dime museums and absolutely controlling ail our freaks. Kohn, Middleton & Co., who have

## The Former Chief of Bloomingdale Asylum Hangs Himself.

News was received to-day that Dr. David Tilton Brown, a wealthy retired farmer living near Batavia, Ill., hanged himself in his barn Wednesday night.

Dr. Brown will be remembered as having been at one time chief of the Bloomingdale Insane Asylum of this city.

He was regarded as high authority on the reatment of manity. Dr. Brown went to Europe in 1875 for treatment, as it was feared that he himselt was be-

coming insane. The report was widely circulated, soon after, that he had died in an Edinburgh

asylum.

This was not true, however, and recently a World reporter discovered him on his beau-tiful farm near Batavia, where he had been these years.
It is thought that he had not fully recovered from his insanity.

He came to New York on Wednesday, and after dining at a restaurant walked along Eighafter dining at a restaurant warant and a teenth street.

When near Fifth avenue he was approached by a nice-looking young man, and asked if he knew Judge Hughes, of Jacksonville.

Of course, the Mayor knew the Judge, and he greeted the alleged nephew with great warmth. In true Southern sivle the friendship was cemented with a drink, and the pair took a promenade.

mented with a dring, and the passes of enade.

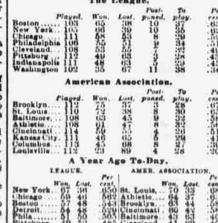

The old, old story was repeated. Mayor and Major Marks was induced to visit a house, where he cannot fell, except that it was in Eighteenth street, and before he parted with the "nephew of Judge Hughes" he was minus \$40, all the

money he had in his possession.

The smart man from Florida had been "bunched" by the flip New York confidence man and will return to his executive office at home a sadder but very much wiser Mayor.

The detectives were unable to afford him any assistance, because of a lack of personal description of the swindler or the location of the house where he dropped his money.

'Prince Hal' was a noted personage in the days when Bill Tweed ruled supreme. He had been a State Senator, and at one time was County Clerk of this city. He was one of the men indicted when the Tweed ring was exposed in 1871. He was accused of collecting \$4,000 for work alleged to have been performed on High Bridge, but which was never done.

A sheriff took charge of him as soon as the indictment was found, and he and 'Prince Hal' wandered around town together.

As his trial drew near and it came time for Harry to appear at court he determined to leave the country.
